DOMESTIC

DOMESTIC STURGEON

With it's great taste and excellent price, American Sturgeon is an excellent choice. It is medium grained and dark gray to black in color.

SALMON

Our salmon roe has never been dyed. It has been specially selected from Pacific Coho or Pin Salmon. The eggs are large, translucent and orange-pink. It has a delicious rich flavor.

IMPORTED

OSETRA

Osetra is the top selling caviar in Europe. As a result of this sturgeon's more delicate size, the eggs are slightly smaller than those of the Beluga, with a brown to golden color and nutty flavor.

SEVRUGA

Sevruga has the largest annual catch which keeps the price at a very competitive level. It is a fine grained caviar of small dark gray eggs. Flavor is buttery & delicious.

EXTREMELY COST EFFECTIVE ALTERNATIVE TO OTHER TYPES OF OLIVE OILS \$\$\$

Olivera was designed as an alternative to other oils. As a result of the high price, health concerns and inconsistent quality that are inherent with Pomace, Olivera has taken the market by storm!! Pomace is derived from the pits and pulp of olives using hexane, a carcinogenic chemical. Olivera is a natural alternative to be used in marinades, sautes and dressings. It's a perfect substitute for any recipe calling for olive oil give it a try!!

FANCY VEGETABLES

Our sun dried tomatoes are truly sun dried; have a superior color and flavor with a soft moist texture and unmatched sweetness. Tomatoes are dried on mesh racks in the hot California sun and are never tunnel or oven dried; unlike most manufacturers.
